

# Monash Health Kingston Centre

Located in Cheltenham, Victoria, Monash Health - Kingston Centre is undergoing a significant redevelopment with a new \$134.6 million aged care facility. This state-of-the-art four-story building will house 150 beds in single bedrooms with private ensuites, designed to promote independence and privacy. The facility will include dementia-friendly features, natural lighting, and access to landscaped gardens.

Shurjoint grooved piping products are being used in the riser systems of the new Kingston Centre facility. These products ensure efficient and reliable water distribution, meeting the high standards required for modern healthcare environments.
